

SCHOOL PRINCIPLES

We promote high achievement in a learning community.

We provide a stimulating and caring environment so that all members of the school can grow in knowledge, skills, understanding and character and achieve to the best of their ability.

We have a strong sense of purpose. We encourage our students to be enthusiastic about learning and positive about the future; to have high self-esteem and be confident and successful in what they do; to have understanding and respect for others; to have the ability and desire to further their own development and contribute to the society in which we live.

We believe in equality of opportunity and in celebrating success of all kinds.

Incidents of poor behaviour will be reported to your tutor and the head of year where appropriate.

Remember

The purpose of our school code and our rules is to bring about a calm, purposeful and happy atmosphere in which we can all thrive. We all have a part to play in this.
