Subject Overview

Students will apply their knowledge and understanding to real-life business contexts, with updated content to reflect the issues impacting on modern businesses in our specification and real business case studies in all our assessments. Students are introduced to business in Themes 1 and 2 through building knowledge of core business concepts and applying them to business contexts to develop a broad understanding of how businesses work. Breadth and depth of knowledge and understanding, with applications to a wider range of contexts and more complex business information, are developed in Themes 3 and 4, requiring students to take a more strategic view of business opportunities and issues.

Students are encouraged to use an enquiring, critical and thoughtful approach to the study of business, to understand that business behaviour can be studied from a range of perspectives and to challenge assumptions.

Assessment percentage Exam: 100%

Progression Routes:

The course develops some important skills such as the ability to think critically and is therefore highly regarded by universities and employers. Students will develop transferable skills that support higher education study and the transition to employment, including numeracy, communication, an understanding of the business environment and commercial awareness. Students can progress from this qualification to:

- Higher education courses such as business management, business administration, accountancy and finance, human resource management, marketing, retail management, tourism management and international business
- A wide range of careers ranging from banking/finance, accounting, marketing, sales, product management and general management to working in public sector organisations or charities.

Former students have entered banking, accounting and finance, media, business management, international business, human resource management, marketing, and the leisure industries.

GCSE Subject Exam results minimum requirements:

- A GCSE in Business is **not required** to have been taken before but if one has been taken then a Grade 5 or above must have been achieved.
- At least 6 more GCSE subjects with Grade 4s. These **MUST** include *English Language* and *Mathematics* at Grade 5

Complementary learning:

The subject is very diverse and therefore compliments many subjects.
