1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which students with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable students and adults with disabilities to take better advantage of education, benefits, facilities and services provided
- Foster good relations across all characteristics – between people who share a protected characteristic and people who do not share it
- Improve the availability of accessible information to students and adults with disabilities.

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

The school supports any available partnerships to develop and implement the plan.

School Ethos, Visions and Values

Park High School is committed to ensuring equal treatment of all its employees, students and any others involved in the school community, with any form of disability and will ensure that people with disabilities are not treated less favourably in any procedures, practices or service delivery.

The school will not tolerate harassment of people with disabilities with any form of impairment and will also consider students who are carers of parents with disabilities.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. Furthermore, we will ensure that Park High School and its stakeholders will:

- Promote equality of opportunity between people with disabilities and other persons
- Eliminate discrimination that is unlawful under the Act
- Eliminate harassment of people with disabilities that is related to their disability
- Promote positive attitudes towards people with disabilities – this means not representing people in a demeaning way, and also means not pretending they don't exist and not representing them anywhere at all
- Encourage participation by people with disabilities in public life – it is also important to respect the wishes of students with disabilities so that they do not feel pushed into activities they do not wish to take part in
- Take steps to consider a person's disabilities, even when that involves treating people with disabilities more favourably than other persons.

Disability in the curriculum, including teaching and learning

Schemes of work/lesson plans will clearly highlight if special considerations need to be made to allow full access to all aspects of the lesson for all students. Any necessary additional equipment/resources will be provided by the school, or outside agencies.

School Facility Lettings

There is limited access to some areas of the school premises. The disabled parking space is located as close as is practicable to the ramped entrance.

Information, performance and evidence

Student Achievement and Attainment

Appropriate data for all students is analysed on a termly basis.

Learning Opportunities

In the case of on-site facilities not being suitable for any student, alternative arrangements will be sought.

Admissions, Transitions, Exclusions

Entry to the school at any level will be based purely on the local authority admissions policy. Likewise, all students facing exclusion will be treated fairly following the school's Exclusion Policy.

Social Relationships

All students new to the school, irrespective of year groups, will follow the relevant induction process. If it is deemed appropriate, tutor/teaching groups will be briefed as to how they can/should respond positively to a newcomer with a disability. This will always be carried out sensitively following consultation and approval from the incoming student. Work in PSHCEe delivers information to help all students in their understanding of the needs of everyone in our school community.

Employing, promoting and training staff with disabilities

There will be no discrimination on the grounds of gender, race, marital status or disability in the recruitment and selection process. The aims of the recruitment and selection process are to ensure that equality of opportunity is considered an integral part of recruitment

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

It is the intention to consult with all stakeholders (students, parents/carers, staff, regular visitors to the school) with disabilities to aid in the development of this scheme by taking account of their views when making appropriate adjustments. This consultation process will be on-going. The Action Plan will be available to stakeholders and the progress made will be reported at least every three years..

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a student with disabilities faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

3. Fostering good relations

The school aims to foster good relations between those who share a protected characteristic and those who do not share it by:

- Promoting tolerance, friendship and understanding of a range of religions and cultures through different aspects of our curriculum. This includes teaching in RE, citizenship and personal, social, health and economic (PSHE) education, but also activities in other curriculum areas. For example, as part of teaching and learning in English/reading, students will be introduced to literature from a range of cultures
- Holding assemblies dealing with relevant issues. Students will be encouraged to take a lead in such assemblies and we will also invite external speakers to contribute
- Encouraging and implementing initiatives to deal with tensions between different groups of students within the school. For example, our School Council has representatives from different year groups and is formed of students from a range of backgrounds. All students are encouraged to participate in the school's activities, such as sports clubs. We also work with parents to promote knowledge and understanding of different cultures
- We have developed links with people and groups who have specialist knowledge about particular characteristics, which inform and develop our approach.
