Information](#)

Qualifications, attributes and skills:

- Completed or in your final year of your A-levels or equivalent qualification (preferably, but not essentially, in Science, Geography and/or Maths),
- Have five GCSEs (or equivalent qualification type) at grade C / Level 5 or above which must include English, Maths and Science.
- Able to think in a methodical way to design, plan and organise projects;
- Strong communication and writing skills;
- Numerate and show a willingness to improve their numerical and mathematical capability.
- Awareness of environmental issues and a desire to work in an environmental consultancy;
- Willing to learn and find new, innovative and creative ways to solve problems;
- Good working knowledge of Microsoft Office applications and an interest finding digital solutions for environmental issues;
- Able to organise your own work, be on time, to work as part of a team.
