

The Harrow Sixth Form Collegiate

A collaborative network for outstanding post-16 education - the Harrow Sixth Form Collegiate is a partnership of schools and colleges in the Harrow area.

The schools in the network are:

- Bentley Wood High School
- Harrow High School
- Hatch End High School
- Nower Hill High School
- Park High School
- Pinner High School
- Rooks Heath School
- Whitefriars School
- Whitmore High School

All students enrolled at any one of these schools can attend a lesson at another school in the collegiate. This ensures students have the opportunity to study a much wider range of subjects. If one school does not offer a particular or unusual subject, the student can be sent to a neighbouring school to study it.

Across the collegiate we offer over 40 subjects including A-levels in: Ancient Greek, Latin, Photography, Philosophy, and Music, and BTECs in: Applied Science, Health and Social Care and Media. Our A-level curriculum offer is almost twice that of most private schools across London.

In addition to collaborating to offer a broad curriculum, the Harrow Sixth Form Collegiate work together to deliver high quality Oxbridge preparation. An annual Oxbridge preparation day in the summer term runs for the most able students and staff across the collegiate offer mock interviews to prospective students in all disciplines. We also prepare students for entry to Medicine and our schools send over 10 students to Oxbridge and 20 to study Medicine each year.
