

Year 12 into 13 BTEC Applied Science Bridging Work

You will be sitting a formal external examination for Unit 1 in January and will have a mock exam in December so you should be spending the majority of your Summer recapping and revising over Unit 1 content.

Biology:

Complete the revision mats for Biology and complete a full set of revision notes on all concepts covered in biology, use the powerpoints that can be found on Canvas to complete your notes.

Chemistry:

Complete the revision mats for Chemistry topics and complete a full set of revision notes on all concepts covered in chemistry, use the powerpoints that can be found on Canvas to complete your notes.

Physics:

Complete the revision mats for Physics and complete a full set of revision notes on all concepts covered in physics, use the powerpoints found on Canvas to complete your notes.

In addition to the above, go through all past exam questions that have been covered within lessons and also go through all mock papers in further detail.
