RE: Park High School's Participation in the Circle of Life Project

Dear Ms Barker,

I am writing to commend your school and your students for their participation in the Circle of Life project. The Circle of Life Award was created in partnership by the social action charity, Young Citizens (formally The Citizenship Foundation), and the Disney Theatrical Group, to encourage young people to establish social action projects and volunteer in their local community.

This letter is in recognition of the Park High Pride Youth Network's impressive commitment and dedication throughout the planning and implementing stages of the project. The team have carefully considered and honed in on an area within their school, and wider world, that they feel requires change.

It is clear that the students worked extremely hard to find an issue that they cared about in their local community and developed a clear plan to tackle it.

It was a pleasure to work with your school on this project; your students embodied the values that we envisioned for the Circle of Life programme when we set it up. We wish them the best of luck with their future efforts to make this a borough-wide initiative.

Yours sincerely,

Nancy Shakerley

Education and Outreach Manager
