Sharepoint will be where students can access home learning and class resources from each department. Students will have access to each department site they have a lesson with. Each department has a specific document library for each year group.

Android [https://play.google.com/store/apps/details?id=com.microsoft.sharepoint&hl=en\\_GB](https://play.google.com/store/apps/details?id=com.microsoft.sharepoint&hl=en_GB)

Windows <https://www.microsoft.com/en-us/p/sharepoint/9nblggh510hb?activetab=pivot:overviewtab>

It is recommended that students download the outlook app or regularly look at their outlook account on a web browser to check any emails from teachers or opportunities at school.

Students can also use the outlook calendar to organise their studies in addition to the contact book.

The screenshot shows the Microsoft Teams desktop application interface. At the top, there is a search bar with the text "Search for or type a command" and the user name "MSPoweruser". The left sidebar contains navigation options: Activity, Chat, Teams, Files, and a "Get app" button. The main area displays a chat conversation with "Anmol". The chat history shows several messages, including one from "Anmol" at 08:04 saying "Oh that's fine. Will do in an hour" and another from "Anmol" at 08:03 saying "can you do this too." with a link to a Twitter post. A notification bubble is overlaid on the bottom right of the chat window, containing the text "Stay in the know. Turn on desktop notifications." and two buttons: "Turn on" (highlighted with a red circle) and "Dismiss".
